Objective

Recent MCA graduate with a practical understanding of HTML, CSS, JavaScript, and React.js, gained through academic projects and self-driven learning. Eager to start a career as a Frontend Developer, where I can build on my skills, contribute to real-world projects, and learn from experienced team members in a professional development environment.

Education

Shri Ramswaroop Memorial College of Engineering and Management *Lucknow, India* MCA 2023 – 2025
HRPG College *Khalilabad, India* B.Sc. 2019 – 2022
Hiralal Ramniwas Inter College *Khalilabad, India* Intermediate 2017 - 2019

Projects

1.Amazon Clone – E-commerce Frontend

Tech: JavaScript, HTML, CSS

- Built a responsive Amazon-like UI for over 20+ product items using modular components.
- Implemented cart functionality and dynamic routing using React state and props.
- Achieved 100% responsiveness across desktop and mobile screens using Flexbox & Grid.

2.EDA on Amazon Sales Dataset

Tech: Python, Pandas, Matplotlib, Seaborn

- Analysed 100+ sales records to uncover seasonal trends and regional patterns.
- Handled missing data and outliers using NumPy, enhancing data integrity.
- Visualized insights through heatmaps, line charts, and bar graphs, improving data presentation clarity by 40%.

Technical Skills

Programming Languages: JavaScript, Python, C, SQL
Web Technologies: HTML, CSS.
Libraries: Pandas, NumPy, Matplotlib
Tools & Platforms: Git, GitHub, Visual Studio Code, Jupiter Notebook, Turbo C++
Concepts: Data Structures and Algorithms, OOP, DBMS, Operating Systems

Certifications

Data Concepts Certificate — Issued by IBM
- Hands-on experience in data cleansing, exploratory data analysis, and visualization.
- Data Science and AI certification.
